

# ***Dear Citizens of Greeley County:***

Thank you – a simple phrase – but today, truly heartfelt. We at Greeley County Health Services have much for which to be thankful.

- Thank you for voting yes on the mill levy. This action directly affects our sustained presence in the community. You have truly supported **YOUR** community health system.

- Thank you for utilizing our services in the hospital, the clinics and the long term care center. We appreciate your choosing us to provide your care and that of your loved ones.

- Thank you for your positive support at the community meetings, at the health fair, in the newspaper, in your businesses and even in the neighborhoods where you posted the “vote yes” signs. The message of encouragement was heard loudly and clearly.

- Thank you to all of the hard working and dedicated team members of GCHS who come to work every

day with a great attitude and a devotion to providing the best care possible for all.

- Thank you to our Physicians, Physician Assistant and Nurse Practitioners who are an extremely talented and devoted group of professionals. They work tirelessly to provide exemplary health care for you.

- Thank you to our Board of Directors for being our champions and for their passion for our Health System.

I speak for all of us here at Greeley County Health Services when I say that we could not be who we are without you. **Your** community health system will continue to provide you with exceptional care and that it is because of your support, our future shines brightly.

With utmost gratitude,  
— Debbi Lehner,  
CEO / Administrator,  
Greeley County Health Services
